

RELAY + Amous

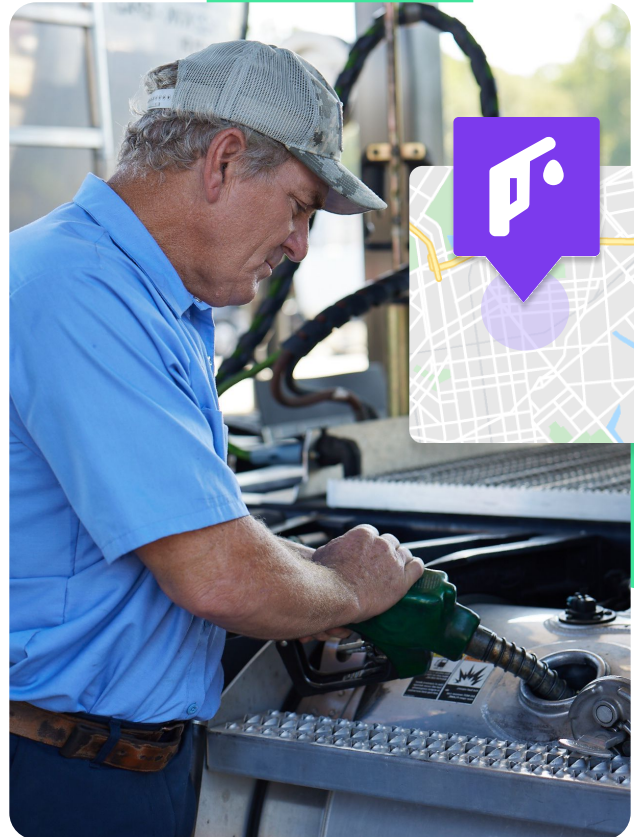

Relay and AmousTMS have integrated to enable fuel transaction data to automatically sync back into AmousTMS in near real-time.

With the Relay and AmousTMS integration for Fuel, our mutual customers can:

- Automatically receive real-time transaction data from Relay for fuel and other transactions into your AmousTMS system
- Eliminate manual data entry by posting fuel transaction information to multiple AmousTMS modules, including General Ledger, Dispatch, Settlements, IFTA Fuel Tax and Accounts Payable
- Gain greater cash flow insights for streamlined operations

When you fuel with Relay you can:

- Reduce fraud with strict controls, monitoring, and innovative geofencing technology
- Take advantage of Relay's Clutch Program for discounted fuel, and use any existing discounts you directly negotiated with merchants
- Allow drivers to conveniently locate on-route truck stops and discounts from Relay's app
- Instantly enable digital payments across your fleet without lengthy activations

300,000+
