# RELAY | MyCarrier Portal

Seamless Financial Flow

With the RelayDirect and MCP Integration

The MCP integration with Relay Payments enables seamless and automated import of carrier profiles and their preferred payment methods, streamlining the onboarding process for brokers and carriers.

This integration ensures that essential data, such as payment terms and factoring agreements, is accurately transferred between systems, enhancing operational efficiency and accuracy in payment processing. By facilitating this direct import, Relay Payments minimizes manual data entry, reduces errors, and ensures up-to-date information for smooth and transparent financial transactions within the logistics industry.

RELAYDIRECT

- Instantly and securely pay carriers while enjoying the flexibility to set customized payment terms, maximizing revenue through Quickpay

- Simplify the process of managing carriers and payee information on one intuitive platform, fostering efficiency and ease in financial operations

- Increase loyalty among preferred carriers by providing seamless and timely payments

- Utilize an easy-to-navigate platform for payment verification and acceptance, creating transparency and visibility in managing payments, paperwork, and overall OTR expenses
