RELAY | McLeod Certified Integration Partner™

Relay integrates with McLeod Software's Batch Fuel Module!

With the Batch Fuel integration, you'll be able to:

- Automatically receive a daily import of your Relay fuel transactions into McLeod

- Eliminate manual data entry by posting fuel transaction information to multiple McLeod modules, including General Ledger, Dispatch, Settlements, IFTA Fuel Tax and Accounts Payable

- Create automatic fuel GL expense entries, settlement deductions, driver call-ins, fuel tax records and accounts payable vouchers

When you fuel with Relay you can:

- Reduce fraud with strict controls, monitoring, and innovative geofencing technology

- Take advantage of Relay's Clutch Program for discounted fuel, and use any existing discounts you directly negotiated with merchants

- Allow drivers to conveniently locate on-route truck stops and discounts from Relay's app

- Instantly enable digital payments across your fleet without lengthy activations

350,000+
carriers and drivers using Relay
